

Hackathon

How Banks can save the world

16th to 17th January 2021

If you want to save the planet ...

Save the brazil rainforest first!

The Amazon rainforest is the "green lung" of our planet

An aerial photograph of a vast, green, grassy field. In the upper-middle section, two horses are grazing. The horse on the left is dark brown, and the one on the right is a lighter brown. Their shadows are cast on the grass. The field is a mix of different shades of green, suggesting various types of grass or perhaps some dry patches. The overall scene is peaceful and rural.

Fire accelerator soy and livestock farming

Options for action against deforestation through feed imports

Ecological trade strategies as solution for a better world

The Bad Guys

Profiteers who collect profits and socialize costs

Let them pay via ecological trading strategies e.g. for reforestation

Trading Tricks for a better Planet

Ingredients

- Forest fires
- Deforestation data
- Soy Sales
- Land use
- Performance of the profiteers
